No facility is available for printing information from the above machines.

By using the **Sankey printer** and changing the **Baud rate,data bits and parity** it is possible with the **Sankey printer lead** to print off the statistics from the Zanussi range of equipment.  
Machines tested:  
Zenith,Brio,Brio250,Granmatti,Colibri,Starfood,Smart,Spring Dual,Spazio.  
**Bilston** produced machines were also tested using the **Zanussi printer lead** with the **Sankey printer**.

**Conclusion:**  
The Sankey printer or the Zanussi printer when set on the relevant settings for machine being worked on can be used with either lead to retrieve the audit information.
